

Product: **CQwax P**

Item Number: 155332

INCI Cetearyl Alcohol (and) Polysorbate 60

CAS # Cetearyl Alcohol (67762-27-0)
Polysorbate 60 (9005-67-8)

DESCRIPTION CQwax P is a versatile, non-ionic emulsifier derived from a blend of Cetearyl Alcohol and Polysorbate 60. It is also known as Emulsifying Wax P. It appears as a white to off-white waxy solid and is specifically designed to create stable oil-in-water emulsions. Known for its ease of use, compatibility with a wide range of ingredients, and ability to provide smooth textures, CQwax P is widely utilized across multiple industries.

APPLICATION **Personal Care:** Emulsifier in creams, lotions, and body butters; stabilizes formulations in serums, hair conditioners, and sunscreen products; delivers a luxurious feel to skin and hair care products
Pharmaceutical: Used as a base for medicinal creams, ointments, and emulsified topical treatments; ensures stability in drug formulations requiring emulsion systems
Industrial Applications: Component in emulsified polishes, coatings, and specialty lubricants; enhances stability in industrial and household cleaning formulations

TYPICAL PROPERTIES	Appearance	White to off-white waxy flakes
	Acid Value (mg KOH/g)	1.0 Max.
	Saponification Value (mg KOH/g)	14.0 Max.
	Moisture (%)	1.0 Max.
	Hydroxyl Value (mg KOH/g)	178 - 192

**HANDLING &
STORAGE** Store in original sealed container in a cool, dry, and well-ventilated area. Keep away from direct sunlight. Handle in accordance with good industrial hygiene and safety practices.

PACKAGING 25 KG BAG
