

Product: **CQsurf SLES 30**

Item Number: 218200

INCI Sodium Laureth Sulfate

CAS # 68891-38-3

DESCRIPTION Sodium Laureth Sulfate 30 (SLES 30) is a medium-active anionic surfactant derived from natural fatty alcohols through ethoxylation and sulfation. It is valued for its excellent foaming, cleansing, and emulsifying properties. With a lower concentration than SLES 70, it offers flexibility in formulating mild and effective cleaning and personal care products.

APPLICATION

Personal Care: Surfactant in shampoos, body washes, bubble baths, and facial cleansers; provides effective cleansing with good foaming properties; ideal for sulfate-containing mild formulations

Household Cleaning: Used in dishwashing liquids, liquid detergents, and multipurpose cleaners for its ability to emulsify oils and dirt

Industrial Cleaning: Component in car wash products, degreasers, and hard-surface cleaners for effective soil removal and foaming performance

**TYPICAL
PROPERTIES**

| | |
|--------------------------|--------------------------|
| Appearance | Colorless to pale yellow |
| Active Matter (%) | 27 – 30 |
| pH (5% Aqueous Solution) | 6.5 – 9.0 |
| Sodium Sulfate (%) | 1.5 Max. |
| Sodium Chloride (%) | 1.5 Max. |
| Unulfated Matter (%) | 1.5 Max |

**HANDLING &
STORAGE**

Store in original sealed container in a cool, dry, and well-ventilated area. Keep away from direct sunlight. Handle in accordance with good industrial hygiene and safety practices.

PACKAGING

235 KG DRUM; 1,000 KG TOTE
