

Heracleum III Suspended

BERTJAN POT | POWERED THROUGH ELECTROSANDWICH® BY MARCEL WANDERS

Nature meets technology in Heracleum III Suspended by Bertjan Pot. This airy LED lamp is inspired by the flowering plant of the same name that can grow as high as 5 metres. The white leaves in Heracleum III Suspended ramify from one branch, creating a very technical, natural structure thanks to a technique of coating conductive layers called Electrosandwich by Marcel Wanders studio. Heracleum III Suspended comes in two sizes and four different colours. Compatible with our Wireless Wall Switch, for quick and easy dimming that gives you full control over the light output.

Detailing

The Heracleum III Suspended is powered by Electrosandwich, a coating of conductive layers on the branches that creates a clean silhouette.
