StepWell™ Sanitizing Mats

Specialty Mats • Indoor

The StepWell mat provides an all-in-one solution for safely sanitizing shoes. It features a 2' x 3' well that holds an abrasive insert and your preferred liquid sanitizer, followed by a 3' x 5' carpeted section to help remove any excess moisture from shoes, reducing the likelihood of slips following sanitation. Wash, wipe, and walk on safely!

- The insert serves as a splash guard and helps dislodge any dirt or debris from the bottom of shoes so the fluid can reach the entire sole surface.
- Each mat includes one insert; additional inserts are available in packs of four.
- Well holds one insert and approximately 84 ounces (2.5 L) of sanitizing solution (not included).
- Compatible with most sanitizing/disinfecting solutions. Works best with quaternary and hydrogen peroxide sanitizing solutions.

Nylon Carpet
Nylon carpet dries shoes to reduce risk of slip-and-fall accidents and protect floors from moisture.

Well with Insert
2'x3' well holds liquid sanitizer and abrasive insert to clean and disinfect shoes.

How do I clean my StepWell mat?

Wipe the well down or hose it off and allow to dry. The insert can be rinsed in a sink or hosed off.

The carpeted portion of the mat can be cleaned in several different ways:

- Vacuum regularly (daily in high-traffic areas; weekly in lower-traffic applications)
- Clean with an extractor. Hang to dry.
- Hose off. Hang to dry.

The StepWell mat works best with quaternary and hydrogen peroxide sanitizing solutions; can be used with chlorine bleach solutions, but failure to adhere to recommended concentrate can damage the mat.

- Quaternary ammonium should be used per recommended dilution instructions on the label (for sanitizing level protection).
- 3% hydrogen peroxide solutions can be used without further dilution.
- 6% chlorine bleach should be used at a concentration of 0.4% (0.5 oz. per gallon). Caution: Do not use mat as a work surface to prepare bleach solution, as undiluted bleach may cause permanent color loss.
