

AGC-F100

Granular activated carbon, Calgon filtrasorb 100, bituminous coal

ResinTech CG8-H-BL is a dark-colored Filtrasorb 100 coal-based granular activated carbon

APPLICATIONS

- Dechlorination
- Organics

Physical Form	Carbonaceous Granules	Color	Black
---------------	-----------------------	-------	-------

SUGGESTED OPERATING CONDITIONS

Maximum Temperature	212°F (100°C)	Flow Rate	Depends on fluid viscosity. Contact ResinTech
		Working Service	

SAFETY DATA SHEETS (SDS)

Safety Data Sheets (SDS) are available for all products on the ResinTech website. They contain important health and safety information that may be needed to protect your employees and customers from any known health and safety hazards associated with our products. We recommend that you secure and study the pertinent MSDS for our products and any other products being used.

These suggestions and data are based on information we believe to be reliable. They are offered in good faith. However we do not make any guarantee or warranty. We caution against using these products in an unsafe manner or in violation of any patents; further we assume no liability for the consequences of any such actions.

Safety Data Sheets (SDS) are available at [resintech.com](https://www.resintech.com)
