The Smart Ergonomic Choice For Maneuvering In Confined Spaces

- 1000 lb. (450 kg) capacity is ideal for continuous hauling of heavy loads over uneven floors and outdoor surfaces
- Shelves are 14-gauge stainless steel with reinforced edges front and back
- All joints are continuous welded
- One-piece ergonomic push handle
- Stainless steel construction resists staining and rusting
- Heavy-duty wide tread 5" swivel non-marking casters
- Easy to clean and sanitize
- NSF listed

Specifications

Unit is of fully welded stainless steel construction. Legs and frame are of U-frame design, eliminating the need for corner reinforcements. Shelves are 14-gauge stainless steel, and are continuously TIG welded to vertical leg frames. Shelves are reinforced front and back with 18-gauge angle welded to the shelf underside. Unit has four each 5" (127 mm) diameter extra-load swivel casters with 1-1/4" (32 mm) wide non-marking polyurethane wheels. One-piece tubular stainless steel ergonomic handle is shipped unassembled. Unit has two each 6" (152 mm) bumpers riveted to front legs. Casters are plate mount type, bolted to an 18-gauge 5" wide stainless steel cross member with a galvanized reinforcement. Unit is NSF listed.
