

Hydronic Descaling Kit

The **NEW Fernox Hydronic Descaling Kit** is the ultimate solution for restoring efficiency in **tankless water heaters and hydronic heating systems**. This **premium all-in-one kit** rapidly dissolves **limescale, dirt, and debris** ensuring optimal system performance.

Each kit handles
up to **15**
DESCALING
JOBS

Why use the NEW Hydronic Descaling Kit?

- **Fast and thorough**
Organic acid based formula removes all accumulated limescale, dirt and debris better than vinegar (and without the smell)
- **Cost efficient**
Each kit can handle 15 descaling jobs on average
- **Corrosion protection**
DS40 formula safeguards metal components while cleaning
- **Improved performance**
Restores heat transfer and system efficiency

What's inside?

- **115V Submersible Pump** – A lightweight submersible model with a capacity of 1600 GPH, featuring a removable inlet screen to minimize cleaning time
- **DS40** – Fernox DS40 Descaler & Cleaner with System Neutralizer is an organic acid based powder that changes color from pink to yellow while descaling
- **Hoses** – A set of 4ft hoses with GHT fittings and extra washers included

Why Fernox?

Quality, simplicity and uncompromising commitment to technical excellence are at the heart of the Fernox philosophy. Each and every product is developed with its user in mind. The New Hydronic Descaling Kit quickly and effectively removes limescale and corrosion build-up from the system. With 60 years of experience and millions of satisfied customers, history speaks for itself.
