Reference:

**CA1 Automatic Air Vent
1/2" BSP**

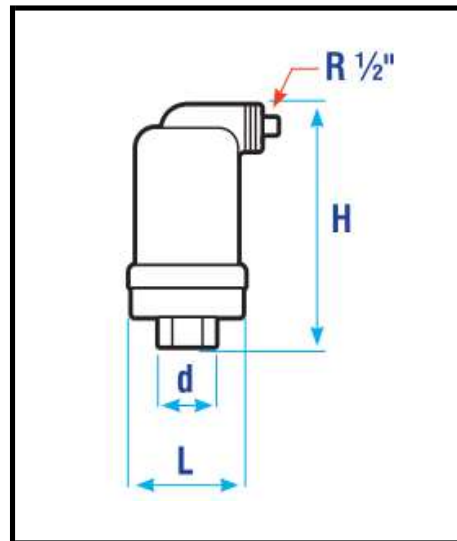

Item code: 33006235

Design Criteria

Medium : Water / Glycol (max.%50)
Max. Pressure : 10 bar-g
Max. Temperature : 110°C
Body material : Nickel-plated brass
Float : Polypropylene
Warranty : 2 years

Dimensions

d : 1/2"
H : 107 mm
L : 58 mm
R : 1/2"
Weight : 0.64 kg

Key Features & Benefits

- Float-controlled automatic air release mechanism
- Vertical installation only – ensures air separation performance
- Nickel-plated brass body for long-term durability and corrosion resistance
- Suitable for water and water/glycol mixtures (up to 50% glycol)
- Robust polypropylene float designed for long service life
- Supplied with a removable 1/2" cap to allow system pressure testing during commissioning.
