DEQSTER Stylus Multi Charger Station

60-SC24

Overview

The DEQSTER stylus charging station offers an efficient and space-saving way to charge up to 24 stylus pens at the same time. It is compatible with various brands such as DEQSTER, Apple and Logitech and supports all common pens with a USB-C connection. The fixed compartment system ensures that the pens are stored in an orderly and safe manner during charging.

Thanks to the simultaneous charging of 24 pens, time is saved and the effort of charging several individual devices via sockets is reduced. The station contains 8 charging cables in a 3:1 ratio and a powerful power supply. The integrated surge protection ensures additional safety. Ideal for schools, offices and creative work environments that value efficiency and convenience.

Highlights

- Charges up to 24 styluses
- compatible with DEQSTER, Apple, and Logitech
- includes 8 flexible 3-in-1 cables
- compact and space-saving design
- ideal for classrooms and shared environments
