SICHERHEITSHINWEISE

Die Installation und Inbetriebnahme, die Wartung, der Austausch sowie die Deinstallation darf nur durch eine qualifizierte Elektrofachkraft vorgenommen werden. Die landesspezifischen Elektroinstallationsvorschriften sind einzuhalten.

ACHTUNG! Vor der Installation ist die Sicherung auszuschalten und erst nach vollständiger Installation und Prüfung wieder einzuschalten. Stellen Sie sicher, dass bei der Montage und Verdrahtung von Leuchten oder Versorgungsgeräten keine Spannung anliegt. Der Dimmer muss entsprechend der Montageanleitung installiert werden. Jede unsachgemäße Verwendung oder Montageart kann die Sicherheit beeinträchtigen.

Bei einem Defekt des Gerätes kontaktieren Sie unbedingt und unverzüglich den Händler oder Hersteller.

Die Wartungshinweise sind unbedingt zu beachten. Das Eindringen von Feuchtigkeit ist zu vermeiden.

Die Montageanleitung ist aufzubewahren.

Technische Änderungen vorbehalten.

Informationen zur Deinstallation und Entsorgung entnehmen Sie unserer Website.

EN

SAFETY INSTRUCTIONS

Installation and commissioning, maintenance, replacement, and deinstallation must only be performed by a qualified electrician. National-specific electrical installation regulations must be followed.

WARNING! Before installation, the circuit breaker must be turned off and only turned on again after complete installation and inspection. Ensure there is no voltage present during the installation and wiring of luminaires or power supplies.

The dimmer must be installed according to the installation instructions. Any improper use or installation can compromise safety.

In case of device defect, contact the dealer or manufacturer immediately. Maintenance instructions must be strictly followed. The ingress of moisture must be avoided. The installation manual must be kept. Technical changes reserved.

For information on deinstallation and disposal, please refer to our website.

NL

VEILIGHEIDSINSTRUCTIES

Installatie en ingebruikname, onderhoud, vervanging en de-installatie mogen alleen worden uitgevoerd door een gekwalificeerde elektricien. Land specifieke elektrotechnische installatieregels moeten worden volg'd.

WAARSCHUWING! Voordat u begint met de installatie, moet de zekering worden uitgeschakeld en pas weer worden ingeschakeld na volledige installatie en inspectie. Zorg ervoor dat er tijdens de montage en bedrading van armaturen of voedingen geen spanning aanwezig is. De dimmer moet volgens de installatie-instructies worden geïnstalleerd. Elk onjuist gebruik of verkeerde installatie kan voor veiligheid in gevaar brengen.

Bij een defect van het apparaat dient u onmiddellijk contact op te nemen met de dealer of fabrikant. Onderhoudsinstructies moeten strikt worden opgevolgd. Het binnendringen van vocht moet worden vermeden. De installatiehandleiding moet worden bewaard. Technische wijzigingen voorbehouden. Voor informatie over de-installatie en verwijdering, raadpleeg onze website.

FR

CONSIGNES DE SÉCURITÉ

L'installation et la mise en service, l'entretien, le remplacement ainsi que la désinstallation doivent être effectués uniquement par un électricien qualifié. Les réglementations nationales spécifiques à l'installation électrique doivent être respectées.

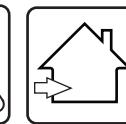

ATTENTION ! Avant l'installation, le disjoncteur doit être coupé et ne doit être réactivé qu'après une installation et une vérification complètes. Assurez-vous qu'aucune tension n'est présente lors du montage et du câblage des luminaires ou des alimentations.

Le variateur doit être installé conformément aux instructions de montage. Toute utilisation ou installation incorrecte peut compromettre la sécurité.

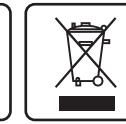

En cas de défaillance de l'appareil, contactez immédiatement le revendeur ou le fabricant. Les instructions d'entretien doivent être strictement suivies. L'intrusion d'humidité doit être évitée.

Le manuel d'installation doit être conservé. Modifications techniques réservées.

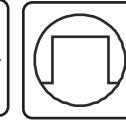

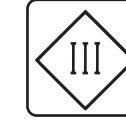

Pour des informations sur la désinstallation et l'élimination, veuillez consulter notre site Web.

4 in 1 Universal Zigbee LED Controller

Important: Read All Instructions prior to Installation

Function Introduction

Dial switch for device mode selection, DIM, CCT, RGBW and RGB+CCT 4 modes are available, factory default is RGB+CCT mode

Program Key: short press to switch on/off the device, press and hold down to increase/decrease light intensity

- 1) Under RGBW mode, W channel can be turned on through Gateway's color temperature control interface which will mix RGB channels as 1 channel white and then make color tuning with the 4th channel white. Once turned on, the brightness of white channel will be controlled together with RGB channels.
- 2) Under RGBW mode, W channel can be controlled separately from RGB channels through RGBW zigbee remote or touch panel's W button, please refer to their manuals.
- 3) Under RGB+CCT mode, RGB channels and tunable white channels are controlled separately, they can not be turned on and controlled at the same time.

Product Data

Input Voltage	Output Current	Output Power	Remarks	Size(LxWxH)	Ambient Temperature	Max. Casing Temperature
12-24VDC	4A/CH	48-96W/CH	Constant voltage	145x46.5x16mm	-20°C ~ +50°C	75°C

- 4 in 1 universal Zigbee LED controller based on latest ZigBee 3.0 protocol
- 4 different device modes DIM, CCT, RGBW and RGB+CCT in 1 controller, and selectable by dial switch
- Enables to control ON/OFF, light intensity, color temperature, RGB color of connected LED lights
- Can directly pair to a compatible ZigBee remote via Touchlink
- Supports self-forming zigbee network without coordinator
- Supports find and bind mode to bind a ZigBee remote
- Supports zigbee green power and can bind max. 20 zigbee green power remotes
- Compatible with universal Zigbee gateway or hub products
- Compatible with universal Zigbee remotes
- Waterproof grade: IP20

Safety & Warnings

- DO NOT install with power applied to device.
- DO NOT operate the dial switches for device mode selection with power applied to device.
- DO NOT expose the device to moisture.

Operation

1. Do wiring according to connection diagram correctly, please power off and power on the device once a device mode is selected so that the selected mode can be activated.

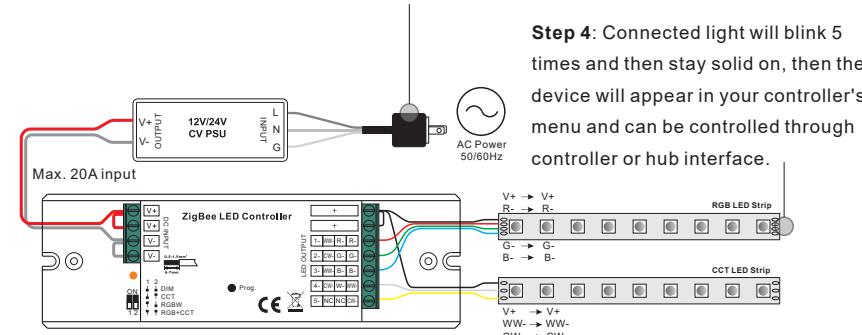

2. This ZigBee device is a wireless receiver that communicates with a variety of ZigBee compatible systems. This receiver receives and is controlled by wireless radio signals from the compatible ZigBee system.

3. Zigbee Network Pairing through Coordinator or Hub (Added to a Zigbee Network)

Step 1: Remove the device from previous zigbee network if it has already been added to, otherwise pairing will fail. Please refer to the part "Factory Reset Manually".

Step 2: From your ZigBee Controller or hub interface, choose to add lighting device and enter Pairing mode as instructed by the controller.

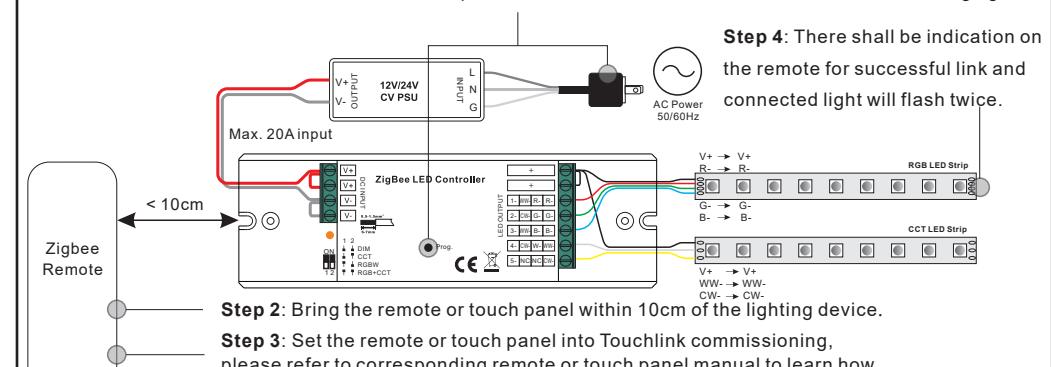

Step 3: power on the device, it will be set into network pairing mode (connected light flashes twice slowly), the network pairing mode will last until the device is added to a zigbee network.

4. TouchLink to a Zigbee Remote

Step 1: Method 1: Short press "Prog" button 4 times (or reset power of the device 4 times) to start Touchlink commissioning immediately under any circumstances, which lasts for 180S, once time out, repeat this step.

Method 2: Add the device to a Zigbee network, then it will be set into Touchlink commissioning immediately. Touchlink will last for 180S, once time out, reset power of the device to set it into touchlink commissioning again.

Step 2: Bring the remote or touch panel within 10cm of the lighting device.

Step 3: Set the remote or touch panel into Touchlink commissioning, please refer to corresponding remote or touch panel manual to learn how.

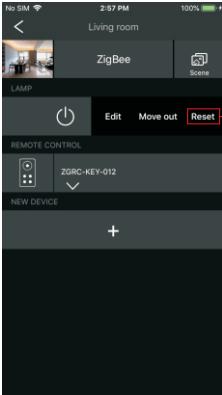

Note: 1) Directly TouchLink (both not added to a ZigBee network), each device can link with 1 remote.

2) TouchLink after both added to a ZigBee network, each device can link with max. 30 remotes.

3) To control by both hub and remote, add remote and device to hub network first then TouchLink.

4) After TouchLink, the device can be controlled by the linked remotes.

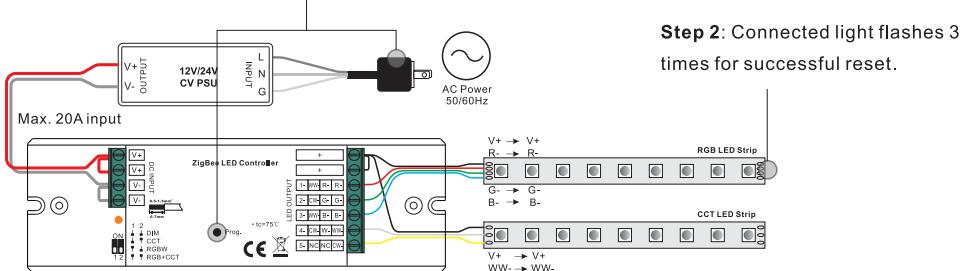

5. Removed from a Zigbee Network through Coordinator or Hub Interface

From your ZigBee controller or hub interface, choose to delete or reset the lighting device as instructed. The connected light blinks 3 times to indicate successful reset.

6. Factory Reset Manually

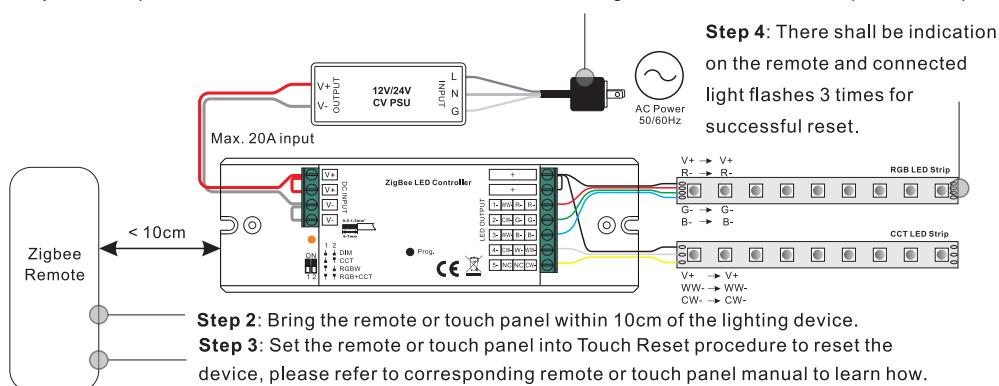

Step 1: Short press "Prog." key for 5 times continuously or reset power of the device for 5 times continuously if the "Prog." key is not accessible.

Note: All configuration parameters will be reset after the device is reset or removed from the network.

7. Factory Reset through a Zigbee Remote (Touch Reset)

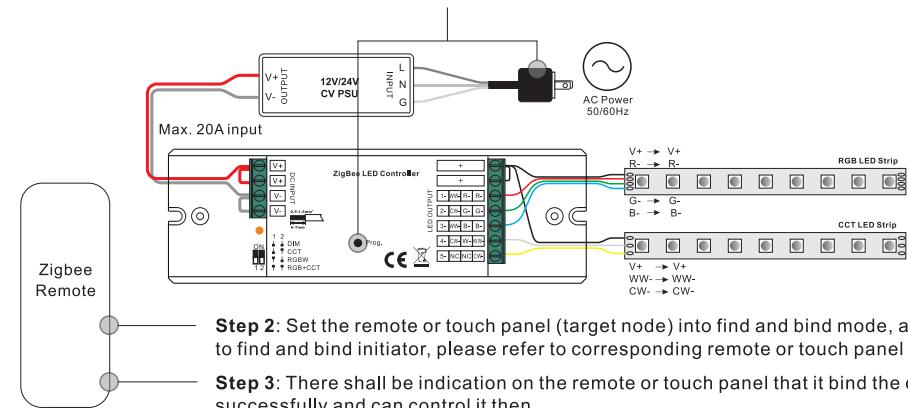

Step 1: Reset power of the device to start TouchLink Commissioning, 180 seconds timeout, repeat this step.

Note: Make sure the device already added to a network, the remote added to the same one or not added to any network.

8. Find and Bind Mode

Step 1: Short press "Prog." button 3 times (Or reset power of the device (initiator node) 3 times) to start Find and Bind mode (connected light flashes slowly) to find and bind target node, 180 seconds timeout, repeat the step.

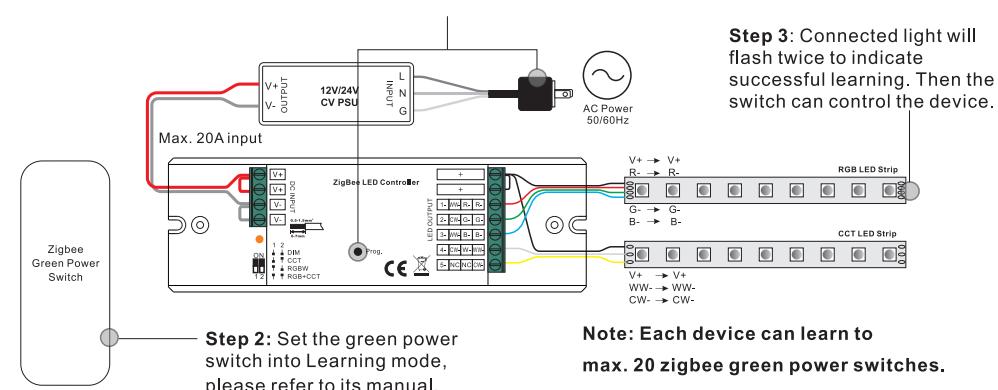

Step 3: There shall be indication on the remote or touch panel that it bind the device successfully and can control it then.

Note: Make sure the device and the remote or touch panel already added to the same Zigbee hub.

9. Learning to a Zigbee Green Power Switch

Step 1: Short press "Prog." button 4 times (Or reset power on the device 4 times) to start Learning to GP switch mode (connected light flashes twice), 180 seconds timeout, repeat the step.

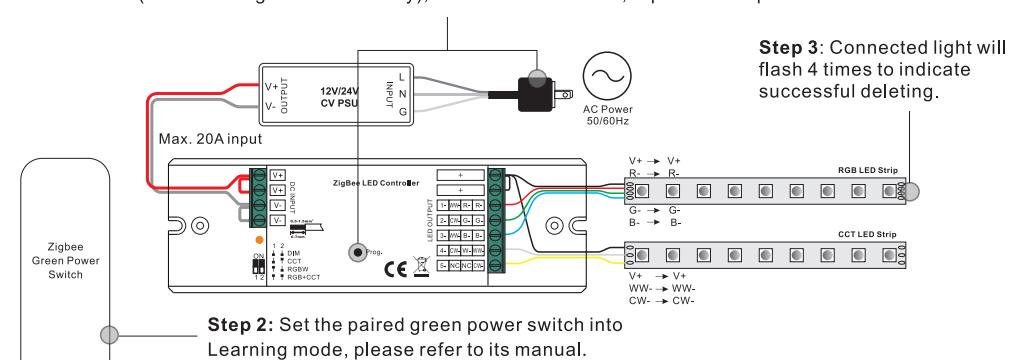

Step 2: Set the green power switch into Learning mode, please refer to its manual.

Note: Each device can learn to max. 20 zigbee green power switches.

10. Delete Learning to a Zigbee Green Power Switch

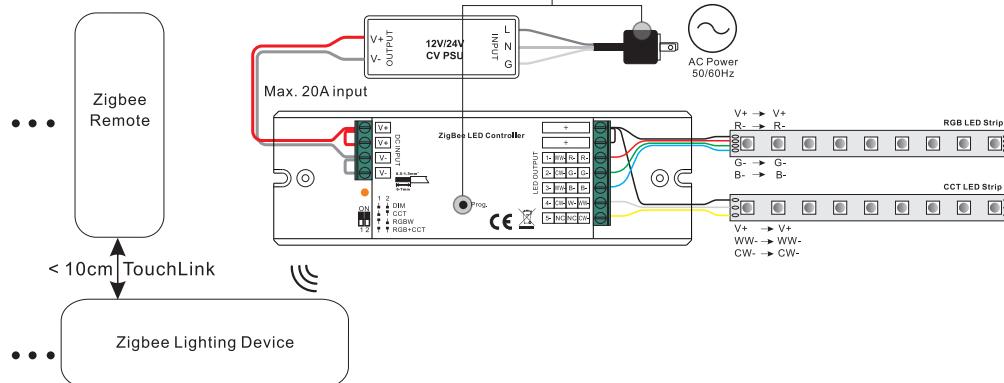

Step 1: Short press "Prog." button 3 times (Or reset power of the device 3 times) to start delete Learning to GP switch mode (connected light flashes slowly), 180 seconds timeout, repeat the step.

Step 2: Set the paired green power switch into Learning mode, please refer to its manual.

11. Setup a Zigbee Network & Add Other Devices to the Network (No Coordinator Required)

Step 1: Short press "Prog." button 4 times (Or reset power of the device 4 times) to enable the device to setup a zigbee network (connected light flashes twice) to discover and add other devices, 180 seconds timeout, repeat the step.

Step 2: Set another device or remote or touch panel into network pairing mode and pair to the network, refer to their manuals.

Step 3: Pair more devices and remotes to the network as you would like, refer to their manuals.

Step 4: Bind the added devices and remotes through Touchlink so that the devices can be controlled by the remotes, refer to their manuals.

Note: 1) Each added device can link and be controlled by max. 30 added remotes.

2) Each added remote can link and control max. 30 added devices.

12. ZigBee Clusters the device supports are as follows:

Input Clusters

- 0x0000: Basic
- 0x0003: Identify
- 0x0004: Groups
- 0x0005: Scenes
- 0x0006: On/off
- 0x0008: Level Control
- 0x0300: Color Control
- 0x0b05: Diagnostics

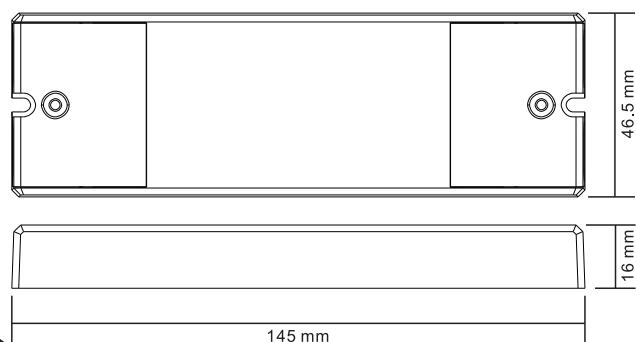

Output Clusters

- 0x0019: OTA

13. OTA

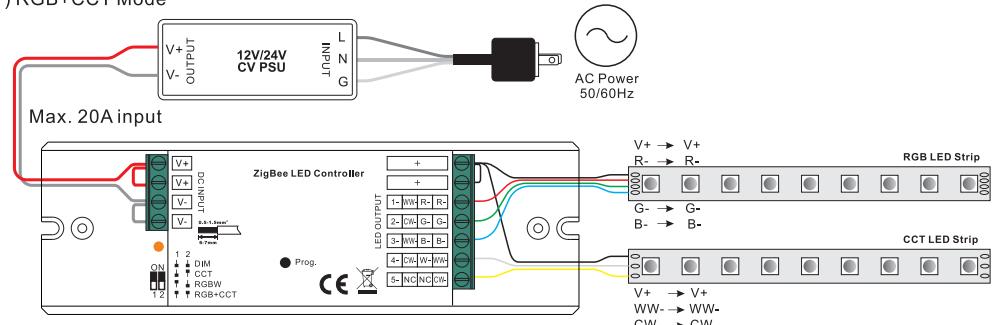

The device supports firmware updating through OTA, and will acquire new firmware from zigbee controller or hub every 10 minutes automatically.

Product Dimension

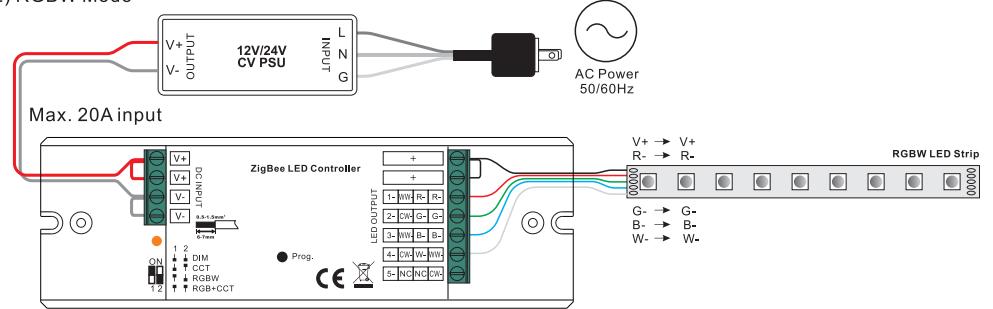

Wiring Diagram

1) RGB+CCT Mode

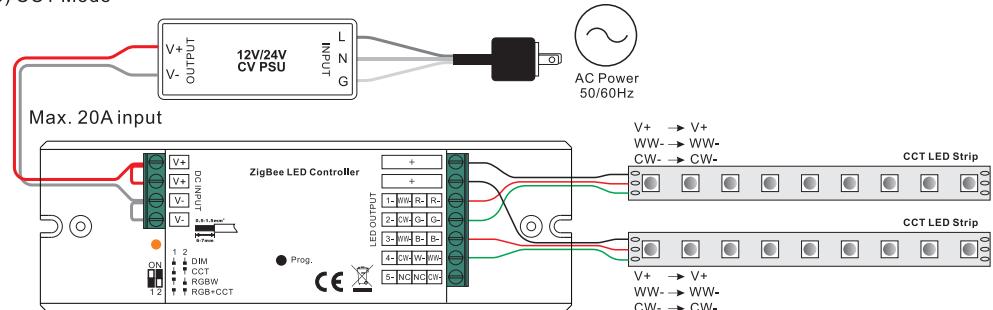

Note: please make sure the dial switches are at position for RGB+CCT mode as shown in above diagram.

2) RGBW Mode

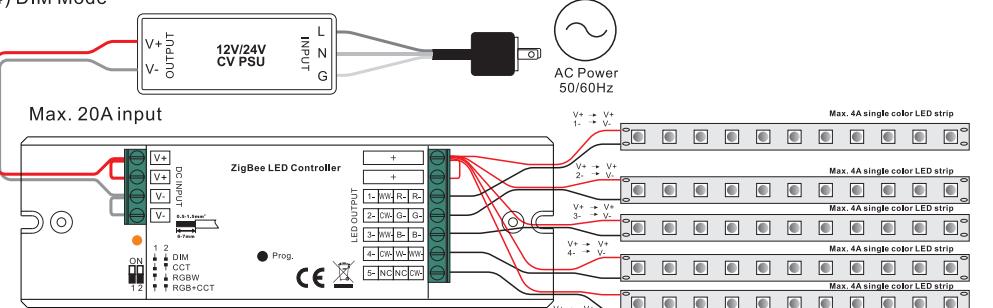

Note: please make sure the dial switches are at position for RGBW mode as shown in above diagram.

3) CCT Mode

Note: please make sure the dial switches are at position for CCT mode as shown in above diagram.

4) DIM Mode

Note: please make sure the dial switches are at position for DIM mode as shown in above diagram.

DE-Entsorgung (Europäische Union)

Bitte das Produkt nicht über den Hausmüll entsorgen!
Produkte, die mit diesem Symbol gekennzeichnet sind, müssen gemäß der WEEE-Richtlinie für Elektro- und Elektronik-Artgeräte über lokale Sammelstellen für Elektroschrott entsorgt werden. Altbatterien und Akkus, die nicht fest im Gerät verbaut sind, sowie Lampen, die sich zerstörungsfrei entnehmen lassen, sind vor der Abgabe an eine Sammelstelle vom Gerät zu trennen. Händler sind gesetzlich verpflichtet, Altgeräte vom Endnutzer zurückzunehmen. Alternativ kann das Altgerät an folgende Adresse geschickt werden:

VYSN GmbH, Siemensstraße 12, 52525 Heinsberg

EN-Disposal (European Union)

Please do not dispose of the product with household waste! Products marked with this symbol must be disposed via local e-waste collection points in accordance with the WEEE Directive for Waste Electrical and Electronic Equipment. Used batteries and accumulators that are not permanently installed in the device, as well as lamps that can be removed without being destroyed, must be separated from the device before being handed over to a collection point. Dealers are legally obliged to take back old devices from the end user. Alternatively, the old device can be sent to the following address:

VYSN GmbH, Siemensstraße 12, 52525 Heinsberg

NL - informatie over recycling (Europese Unie)

Gooi het product niet weg met het huishoudelijk afval! Producten gemarkeerd met dit symbool moeten worden afgevoerd via plaatselijke inzamelpunten voor elektronisch afval in overeenstemming met de WEEE-richtlijn voor afgedankte elektrische en elektronische apparatuur. Gebruikte batterijen en accu's die niet permanent in het apparaat zijn geïnstalleerd, evenals lampen die kunnen worden verwijderd zonder te worden vernietigd, moeten van het apparaat worden gescheiden voordat ze worden ingeleverd bij een inzamelpunt. Dealers zijn wettelijk verplicht oude apparaten terug te nemen van de eindgebruiker. Als alternatief kan het oude apparaat naar het volgende adres worden verzonden:

VYSN GmbH, Siemensstraße 12, 52525 Heinsberg

FR-informations sur le recyclage (Union européenne)

Veuillez ne pas jeter le produit avec les ordures ménagères ! Les produits marqués de ce symbole doivent être éliminés via les points de collecte des déchets électroniques locaux conformément à la directive DEEE relative aux déchets d'équipements électriques et électroniques. Les piles et accumulateurs usagés qui ne sont pas installés de manière permanente dans l'appareil, ainsi que les lampes qui peuvent être retirées sans être détruites, doivent être séparés de l'appareil avant d'être remis à un point de collecte. Les revendeurs sont légalement tenus de reprendre les anciens appareils de l'utilisateur final. Alternativement, l'ancien appareil peut être envoyé à l'adresse suivante :

VYSN GmbH, Siemensstraße 12, 52525 Heinsberg

IT-informazioni sul riciclaggio (Unione Europea)

Si prega di non smaltire il prodotto con i rifiuti domestici! I prodotti contrassegnati con questo simbolo devono essere smaltiti tramite i punti di raccolta locali dei rifiuti elettronici in conformità con la Direttiva RAEE per i rifiuti di apparecchiature elettriche ed elettroniche. Le batterie e gli accumulatori usati che non sono installati in modo permanente nell'apparecchio, nonché le lampade che possono essere rimosse senza essere distrutte, devono essere separati dall'apparecchio prima di essere consegnati a un punto di raccolta. I rivenditori sono legalmente obbligati a riprendere i vecchi dispositivi dall'utente finale. In alternativa è possibile spedire il vecchio dispositivo al seguente indirizzo:

VYSN GmbH, Siemensstraße 12, 52525 Heinsberg

ES-información sobre reciclaje (Unión Europea)

No deseche el producto con la basura doméstica! Los productos marcados con este símbolo deben eliminarse a través de puntos locales de recolección de desechos electrónicos de acuerdo con la Directiva WEEE para desechos de equipos eléctricos y electrónicos. Las pilas y acumuladores usados que no estén instalados permanentemente en el aparato, así como las lámparas que puedan retirarse sin destruirse, deben separarse del aparato antes de entregarse en un punto de recogida. Los distribuidores están obligados legalmente a recuperar los dispositivos viejos del usuario final. Alternativamente, el dispositivo antiguo se puede enviar a la siguiente dirección:

VYSN GmbH, Siemensstraße 12, 52525 Heinsberg

DA-Bortskaffelse (EU)

Bortskaf ikke produktet sammen med husholdningsaffaldet! Produkter mærket med dette symbol skal bortskaffes via lokale indsamlingssteder for elektronisk affald i overensstemmelse med WEEE-direktivet for affald af elektrisk og elektronisk udstyr. Brugte batterier og akkumulatorer, der ikke er fast installeret i apparetet, samt lamper, der kan fjernes uden at blive ødelagt, skal adskilles fra apparetet, inden det afleveres til et indsamlingssted. Forhandlere er juridisk forpligtet til at tage gamle enheder tilbage fra slutbrugerne. Alternativt kan den gamle enhed sendes til følgende adresse:

VYSN GmbH, Siemensstraße 12, 52525 Heinsberg

PL - Utylizacja (Unia Europejska)

Prosimy nie wyrzucać produktu razem z odpadami domowymi! Produkty oznaczone tym symbolem należy utylizować w lokalnych punktach zbiórki elektroodpadów zgodnie z dyrektywą WEEE dotyczącą zużytego sprzętu elektrycznego i elektronicznego. Zużyte baterie i akumulatory, które nie są zamontowane na stałe w urządzeniu, a także lampy, które można wyjąć bez zniszczenia, należy oddzielić od urządzenia przed oddaniem do punktu zbiórki. Dealerzy są prawnie zobowiązani do odbioru starych urządzeń od użytkownika końcowego. Alternatywnie stare urządzenie można wysłać na adres:

VYSN GmbH, Siemensstraße 12, 52525 Heinsberg

RU - Утилизация (Европейский Союз)

Пожалуйста, не выбрасывайте изделие вместе с бытовыми отходами! Продукты, отмеченные этим символом, должны утилизироваться через местные пункты сбора электронных отходов в соответствии с Директивой WEEE об отходах электрического и электронного оборудования. Использованные батарейки и аккумуляторы, не установленные в устройстве стационарно, а также лампы, которые можно снять без разрушения, перед сдачей в пункт приема необходимо отдельно от устройства. Дилеры по закону обязаны забрать старые устройства у конечного пользователя. Альтернативно старое устройство можно отправить по следующему адресу:

VYSN GmbH, Siemensstraße 12, 52525 Heinsberg

SW - Avfallshantering (Europeiska unionen)

Vänligen släng inte produkten med hushållsavfallet! Produkter märkta med denna symbol måste kasseras via lokala insamlingsställen för e-avfall i enlighet med WEEE-direktivet för avfall från elektrisk och elektronisk utrustning. Förbrukade batterier och ackumulatorer som inte är permanent installerade i enheten, samt lampor som kan tas bort utan att förstöras, ska separeras från enheten innan lämnas till en insamlingsplats. Återförsäljare är enligt lag skyldiga att ta tillbaka gamla enheter från slutanvändaren. Alternativt kan den gamla enheten skickas till följande adress:

VYSN GmbH, Siemensstraße 12, 52525 Heinsberg

TR - Bertaraf (Avrupa Birliği)

Lütfen ürünü ev atıklarıyla birlikte atmayın! Bu sembolle işaretlenen ürünler, Atık Elektrikli ve Elektronik Ekipmanlara ilişkin WEEE Direktifine uygun olarak yerel e-atık toplama noktalari aracılığıyla imha edilmelidir. Cihaza kalıcı olarak takılmayan kullanılmış piller ve akümülatörler ile imha edilmeden çıkarılabilen lambalar, bir toplama noktasına teslim edilmeden önce cihazdan ayrılmalıdır. Bayiler yasal olarak eski cihazları son kullanıcidan geri almakla yükümlüdür. Alternatif olarak eski cihaz aşağıdaki adres'e göndereilebilir:

VYSN GmbH, Siemensstraße 12, 52525 Heinsberg

HU - Ártalmatlanítás (Európai Unió)

Kérjük, ne dobja ki a terméket a háztartási hulladékkel együtt! Az ezzel a szimbólummal jelölt termékeket az elektromos és elektronikus berendezések hulladékára vonatkozó WEEE-irányelvnek megfelelően a helyi e-hulladék-gyűjtőhelyeken kell leadni. A készülékbe nem tartósan beszerelt használt elemeket és akkumulátorokat, valamint a tönkremeneti nélküli eltávolítható lámpákat a gyűjtőhelyre történő átadás előtt le kell választani a készülékről. A kereskedőknek törvényi kötelezettségük van a régi készülékek visszavételére a végfelhasználótól. Alternatív megoldásként a régi készüléket elküldheti a következő címre:

VYSN GmbH, Siemensstraße 12, 52525 Heinsberg
