Diskus® 20/80

TRUST THE ORIGINAL

The Diskus® 20 padlock has a proven track record of safeguarding highly valuable items in situations with a very high risk of theft.

Its round design, featuring a narrow shackle opening and a robust welding seam, guarantees reliable security. The Diskus® 20 padlock is an excellent choice for protecting your valuables, whether they're stored in trucks, vans, or behind factory gates.

Constructed from stainless steel both internally and externally, and featuring a shackle made of specially hardened steel, this padlock boasts exceptional resistance against picking attempts. What sets it apart is the meticulous hand-welded seam that joins the two stainless steel housing pieces together. This level of craftsmanship ensures that the Diskus® 20 remains virtually impervious to tampering.

For enhanced security, we recommend pairing the Diskus® 20 with the corresponding hasp 140. Trust in the Diskus® 20 padlock to provide top-tier protection for your valuable belongings.

Technologies

- Stainless steel - outside and inside
- Additional protection against sawing
- Shackle made from high quality stainless steel
- ABUS-Plus disc cylinder: highest protection against manipulation, extremely high number of key differs
- Cylinder cover – maximum protection against dirt and water spray
