

SINGLE FRAME INSTALLATION | DEA DION S

PREPARATIONS:

Before assembling the luminaire, carefully read these instructions to make sure the luminaire functions correctly and safely • The mains isolator on the consumer unit/fuse board must be in "OFF" position before commencing any electrical work • The luminaires should be mounted on a flat, smooth surface • With all painted/plated products some shade and finishing variation may occur, please make sure the luminaires are checked before installation • The luminaire must not be modified. Modifying the luminaire in any way invalidates the guarantee of conformity with standards and directives in force and it could make the actual luminaire hazardous • Before connecting the luminaire, make sure the mains power supply corresponds to the power indicated on the luminaire label • Never cover the luminaire during use. Luminaires classified for indoor use must never be used outdoors even if they are protected from the elements • The manufacturer reserves the right to change the product specification without prior notice.

! PLEASE NOTE: Installation must be done by qualified and trained personnel !

MINIMUM HEIGHT TO TILT-IN DRIVER AFTER INSTALLATION
! NOT POSSIBLE

MINIMAL VOLUME:
AxBxC

Dea Dion S

			170x170x130
			170x270x130
			170x365x130
			170x465x130

USE PLASTERBOARD GLUE ALL AROUND FLANGE BORDER
(DO NOT USE SILICONE ADHESIVE)

CEILING THICKNESS BETWEEN 2mm - 30mm

⚙️ TURN THE SCREW TO MOVE CLAMP UP/DOWN

PROTECT INSIDE OF THE FRAME FROM FILLER.
(USE INCLUDED CARDBOARD TEMPLATE)

- ① BREAK-OFF LINES FOR COMBINING FRAMES
- ② CUT MARKS ON REINFORCEMENT ARM FOR COMBINING FRAMES
- ③ SNAP FEATURES FOR COMBINING FRAMES
- ④ REINFORCEMENT ARM

CENTER DISTANCE BETWEEN COMBINED FRAMES ALWAYS 99mm

STEP 1: COMPOSE YOUR INDIVIDUAL DESIGN

STEP 2. PRESENT YOUR COMPOSED COMBINATION TO SEE WHICH BREAK-OFF LINES ARE APPLICABLE.

STEP 3. USE SIDE CUTTER TO CUT LOOSE CORRECT REINFORCEMENT ARMS ON THE CUT MARKER

STEP 4. BREAK-OFF THE FLANGES ON THE CORRECT BREAK-OFF LINES

STEP 5. CONNECT THE FRAMES BY PRESSING THE SNAP FEATURES INTO EACH OTHER

The individual frames' front sides should be placed on a very flat work table while connecting them together by pressing.

MAKE SURE ALL SNAP FEATURES ARE FULLY PRESSED TOGETHER

STEP 6. USE THE CENTER MARKERS TO DEFINE HOLE SAW CENTERS

STEP 7. INSTALL THE FRAME BY USING INSTALLATION INSTRUCTION

 THE LIGHT SOURCE CONTAINED IN THIS LUMINAIRE SHALL ONLY BE REPLACED BY THE MANUFACTURER OR HIS SERVICE AGENT OR A SIMILAR QUALIFIED PERSON

NOTES:
A special tool to help you to change the reflectors you want.

Push module up to let it fall down itself at the preset position

Pull module down out of the mounting kit for relamping or power supply changing
