

Precision Loop PRODUCT DATASHEET

ICON KEY ON SECOND PAGE

- ➔ Perfect material to produce inlay logomats with a smooth surface.
- ➔ Durable entrance carpet, UV and stain resistant.
- ➔ Ideal for use in logomat designs
- ➔ Choose from 15 colours to recreate your design.
- ➔ Heavy weight pile provides outstanding absorbing and wiping action.
- ➔ Needlefelt construction provides good crush resistance.
- ➔ Edges will not unravel or fray.
- ➔ Logomats made in Britain.
- ➔ Low installation cost.

Technical Specification

Material	Polypropylene
Backing	OX
Surface Finish	Velour
Product Height	12.5 mm +15% / -10%
Product Weight	2.76 kg / m ² ± 15%
Roll Length	20 m
Pile Height	6 mm
Durability	Medium to heavy traffic entrances
Pile Yarn Composition	100% PP
Pile Weight	1.8 kg / m ²
Environmental Resistance	Suitable for indoor environments only
Installation Method	Can be laid to surface or Installed into recessed well
Fire Tested to	BS EN 13501-1 Class Cfl – s1
COO (Country of Origin)	NL
Slip Tested to	BS 7976-2 – low slip potential > 0.3 Machine direction, > 0.3 Cross direction
Luxury Class	LC2

PRODUCT DATASHEET

ZONES

Zones

We recommend a zoning system when choosing your entrance matting. Whether your entrance extends outdoors or is fully covered, creating three zones delivers optimum dirt barrier performance, ensuring interior floors are kept clean and hazard free.

Light	Medium	High	Very High	Light	Medium	Heavy Duty	Max Duty	Dirt	Moisture
Less than 80 people per hour 3-4 metres	Up to 300 people per hour 6-7 metres	Around 600 people per hour 8-10 metres	Over 5,000 people per day 9-12 metres	Suitcases, Wheelchairs	Supermarket Trolleys, Sack barrows, Luggage trolleys	Supermarket Cages, Pallet Trucks	Forklift Trucks, Hydraulic Cranes	Most Effective Against Dirt/Soil	Most Effective Against Moisture
Pedestrian Traffic				Wheeled Traffic			Contaminants		
It is important that matting is a sufficient length to allow moisture and debris to be wiped off footwear as people walk across the mat. Our COBA Flooring team recommends a minimum of six footsteps for this to be effective.				Depending on the nature of the building, the entrance may have to contend with different types of wheeled traffic. It is important that all matting complies with DDA Regulations/The Equality Act, so that wheelchairs can safely move on and off.			All of our products protect you against contaminants, but some products are more effective than others for removing either dirt or moisture. Use these icons to determine which.
