

ICON KEY ON SECOND PAGE

- ➔ A popular choice for flooring contractors requiring versatile rolls of entrance carpet.
- ➔ Debris and moisture are captured in the ridges and can be vacuumed for easy maintenance.
- ➔ Adaptable carpet entrance matting that can be used in recessed matwells or on pedestrian walkways.
- ➔ 100% polypropylene pile is durable and suitable for heavy-duty use.

Technical Specification

| | |
|---|---------------------------------|
| Material | 75% PP, 25% PE |
| Backing | PD |
| Surface Finish | 2-rib design |
| Product Height | 6.5 mm +15% / -10% |
| Product Weight | 1.93 kg / m ² |
| Roll Length | 35 m |
| Pile Height | 2.5 mm ± 10% |
| Durability | Low to medium traffic entrances |
| Pile Weight | 0.62 kg / m ² |
| Typical Applications | Entrance areas |
| Other Product Performance Information | CE approved |
| COO (Country of Origin) | NL |
| Adhesive recommended by F.Ball for permanent bond | F3 |
| Adhesive recommended by F.Ball for heavy-duty/wet areas | F74, F81 or F84 |

ZONES

Zones

We recommend a zoning system when choosing your entrance matting. Whether your entrance extends outdoors or is fully covered, creating three zones delivers optimum dirt barrier performance, ensuring interior floors are kept clean and hazard free.

| Light | Medium | High | Very High | Light | Medium | Heavy Duty | Max Duty | Dirt | Moisture |
|---|--------------------------------------|--|---------------------------------------|---|--|----------------------------------|--|----------------------------------|---------------------------------|
| Less than 80 people per hour 3-4 metres | Up to 300 people per hour 6-7 metres | Around 600 people per hour 8-10 metres | Over 5,000 people per day 9-12 metres | Suitcases, Wheelchairs | Supermarket Trolleys, Sack barrows, Luggage trolleys | Supermarket Cages, Pallet Trucks | Forklift Trucks, Hydraulic Cranes | Most Effective Against Dirt/Soil | Most Effective Against Moisture |
| Pedestrian Traffic | | | | Wheeled Traffic | | | Contaminants | | |
| It is important that matting is a sufficient length to allow moisture and debris to be wiped off footwear as people walk across the mat. Our COBA Flooring team recommends a minimum of six footsteps for this to be effective. | | | | Depending on the nature of the building, the entrance may have to contend with different types of wheeled traffic. It is important that all matting complies with DDA Regulations/The Equality Act, so that wheelchairs can safely move on and off. | | | All of our products protect you against contaminants, but some products are more effective than others for removing either dirt or moisture. Use these icons to determine which. | | |
