

Mesh Corner Bead Submittal Sheet

STOCK NO.	LENGTH	PCS. PER BOX
2209MESH	10'	50

Description: A time-saving way to finish exterior corners in Direct Applied systems, our Mesh Corner Bead combines impact-resistant PVC and alkaline-resistant fiberglass mesh to save time while delivering stronger, straighter corners. This highly durable bead helps prevent cracking, speeds up installation and gives your finish coat a clean, square edge.

Advantages: Made from exterior grade PVC. Provides a high impact resistant, rust-proof termination corner.

Applicable Standards: Rigid exterior grade PVC products made by Trim-Tex meet ASTM specifications C926, C1063, C1780, C1861, D1784 and D4216.

Installation: Trim-Tex recommends following established acceptable industry standard installation methods. All butt joints, intersections, and ends should be caulked at the time of installation using elastomeric sealant. When painting Trim-Tex Exterior products, please refer to our painting resources to ensure proper performance and prevent product defects such as warping, oil canning, and buckling.
