

Product Intersections Submittal Sheet

Please visit our website for SKU information

Description: Product intersections make it possible to create everything from crosses to 90° "L" bends, inside corners to outside corners, "T" shapes to end caps – all in one, continuous detail. Trim-Tex offers intersections for numerous solutions, including expansions and reveal effects. By combining beads and their intersections to create unforgettable drywall designs, the only limit is your imagination!

Advantages: Made from rust proof, dent resistant PVC to reduce jobsite and handling damage. Does not contain cellulose, a potential food source for mold.

Limitations: Product is designed for interior use.

Applicable Standards: Rigid PVC products made by Trim-Tex meet ASTM specifications D3678, D1784, C1047 and achieve a Class A rating for flame spread and smoke developed when tested under ASTM E84.

Surface Characteristics: Trim-Tex products are made from PVC. PVC does not support combustion and is self-extinguishing when the source of flame or heat is removed.

Installation: Trim-Tex recommends following established acceptable industry standard installation methods. Detailed installation instructions can be found at www.trim-tex.com.

Finishing: Always use a high quality paint.

Accessories: 847 Spray Adhesive and Safety Products distributed by Trim-Tex.
