Description: Designed for aesthetic use, ULTRA-TRAC[™] Aesthetic Stucco Channel Reveal adds sharp, decorative reveals that break up big stucco walls and create custom patterns. It offers great paint adhesion for a clean, finished look and works as a caulk base to help reduce cold joints and keep everything looking seamless over time.

Advantages: Made from exterior grade PVC. Provides a high impact resistant, rust-proof termination corner.

Applicable Standards: Rigid exterior grade PVC products made by Trim-Tex meet ASTM specifications C926, C1063, C1780, C1861, D1784 and D4216.

Installation: Trim-Tex recommends following established acceptable industry standard installation methods. All butt joints, intersections, and ends should be caulked at the time of installation using elastomeric sealant. When painting Trim-Tex Exterior products, please refer to our painting resources to ensure proper performance and prevent product defects such as warping, oil canning, and buckling.
