

Floor Line Control Bead with Drip Edge Submittal Sheet

STOCK NO.	A SIZE	LENGTH	PCS. PER BOX
2078-50	1/2"	10'	15
2078-58	5/8"	10'	15
2078-78	7/8"	10'	15

Description: The Floor Line Control Bead with Drip Edge acts as both a control joint and moisture management solution where two differing materials, like wood and concrete, meet. The built-in drip edge guides water away from the wall and the joint, protecting your finish and stopping damage before it starts.

Advantages: Made from exterior grade PVC. Provides a high impact resistant, rust-proof termination corner.

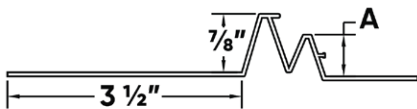

Applicable Standards: Rigid exterior grade PVC products made by Trim-Tex meet ASTM specifications C926, C1063, C1780, C1861, D1784 and D4216.

Installation: Trim-Tex recommends following established acceptable industry standard installation methods. All butt joints, intersections, and ends should be caulked at the time of installation using elastomeric sealant. When painting Trim-Tex Exterior products, please refer to our painting resources to ensure proper performance and prevent product defects such as warping, oil canning, and buckling.
