

Inside Corner Control Joint Submittal Sheet

STOCK NO.	A SIZE	LENGTH	PCS. PER BOX
2050-IC	1/2"	10'	35
2058-IC	5/8"	10'	35
2075-IC	3/4"	10'	30
2078-IC	7/8"	10'	30

Description: Say goodbye to cracking inside corners – the Inside Corner Control Joint relieves stress from the expansion and contraction of walls while creating straight, clean lines where walls and ceilings meet. It's the perfect solution for keeping inside angles sharp, neat, and long-lasting.

Advantages: Made from exterior grade PVC. Provides a high impact resistant, rust-proof termination corner.

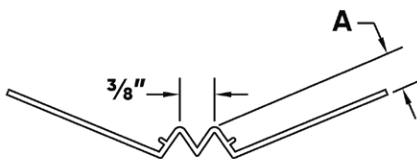

Applicable Standards: Rigid exterior grade PVC products made by Trim-Tex meet ASTM specifications C926, C1063, C1780, C1861, D1784 and D4216.

Installation: Trim-Tex recommends following established acceptable industry standard installation methods. All butt joints, intersections, and ends should be caulked at the time of installation using elastomeric sealant. When painting Trim-Tex Exterior products, please refer to our painting resources to ensure proper performance and prevent product defects such as warping, oil canning, and buckling.
