

H Trim Submittal Sheet

STOCK NO.	A SIZE	LENGTH	PCS. PER BOX
2232-516	5/16"	10'	50
2232-38	3/8"	10'	50
2232-50	1/2"	10'	50

Description: H Trim is built to conceal vertical joints between fiber cement panels, delivering a crisp, finished look without the mess of caulk. Made from durable, rust-proof PVC, it helps protect against moisture while giving your install a cleaner, more polished edge.

Advantages: Made from exterior grade PVC. Provides a high impact resistant, rust-proof termination corner.

Applicable Standards: Rigid exterior grade PVC products made by Trim-Tex meet ASTM specifications C926, C1063, C1780, C1861, D1784 and D4216.

Installation: Trim-Tex recommends following established acceptable industry standard installation methods. All butt joints, intersections, and ends should be caulked at the time of installation using elastomeric sealant. When painting Trim-Tex Exterior products, please refer to our painting resources to ensure proper performance and prevent product defects such as warping, oil canning, and buckling.
