SBCI-2-78	7/8"	2"	10'	8
SBCI-2-78NF	7/8"	2"	10'	8

**Description:** Built for continuous insulation systems, Hard Coat TRAC<sup>™</sup> for Window/Door Edge combines the TRAC and corner bead into one durable piece, used to finish around window and door openings. It helps you install faster while delivering straighter lines and a cleaner finish. Drainage holes move moisture out of the system, and the lightweight design makes it easy to handle onsite. Designed to deliver clean, solid edges every time.

**Advantages:** Made from exterior grade PVC. Provides a high impact resistant, rust-proof termination corner.

**Applicable Standards:** Rigid exterior grade PVC products made by Trim-Tex meet ASTM specifications C926, C1063, C1780, C1861, D1784 and D4216.

**Installation:** Trim-Tex recommends following established acceptable industry standard installation methods. All butt joints, intersections, and ends should be caulked at the time of installation using elastomeric sealant. When painting Trim-Tex Exterior products, please refer to our painting resources to ensure proper performance and prevent product defects such as warping, oil canning, and buckling.
