

2-Piece Soffit Vent with 90° Leg Submittal Sheet

STOCK NO.	A SIZE	B SIZE	AIRFLOW/ LF	PCS. PER LENGTH	BOX
F454858WF551	5/8"	4"	16 sq in.	10'	13

Description: The 2-Piece Soffit Vent with 90° Leg is a simple, effective solution to vent areas where a horizontal soffit meets a vertical wall or fascia. It works with standard sheathing and installs in two easy steps: just fasten the F-clip to the vertical surface, then slide the vent into place. With 1/8" vent holes and a secure fit, it helps air move freely while keeping the finish looking sharp.

Advantages: Made from exterior grade PVC. Provides a high impact resistant, rust-proof termination corner.

Applicable Standards: Rigid exterior grade PVC products made by Trim-Tex meet ASTM specifications C926, C1063, C1780, C1861, D1784 and D4216.

Installation: Trim-Tex recommends following established acceptable industry standard installation methods. All butt joints, intersections, and ends should be caulked at the time of installation using elastomeric sealant. When painting Trim-Tex Exterior products, please refer to our painting resources to ensure proper performance and prevent product defects such as warping, oil canning, and buckling.
