- ✓ Gentle on the skin, effective against dirt
- ✓ No colorant and fragrance
- ✓ Suitable for delicate and sensitive skin
- ✓ Contains glycerin that nourishes and protects your skin from dehydration
- ✓ For frequent washing

Product Description

ABENA's Foam Soap is the safe choice for daily hand washing. The soap is, as the name indicates, developed in foam form, which produces a light, airy texture and a soap that is also extra easy to apply. Our foam soap is perfect for frequent hand washing, since the pH value in the soap is adapted to your own skin's value. This means that your skin does not dry out, even when you wash your hands often. At the same time, the soap's formula has had balm added with glycerin content, which both nourishes and moisturizes your skin and leaves your hands clean and soft. The hand soap does not contain neither colorant nor fragrance and is therefore the ideal solution for all skin types - including extra delicate and sensitive skin. ABENA's Cream Soap is gentle on your skin, but effective against bacteria and dirt.

Specifications
