

Freezer Cleaner

LOW TEMPERATURE CLEANING AGENT

Freezer Cleaner is a special formula to clean a freezer without defrosting. The fast action formula looses stubborn built-up, iced soil deposits and works efficiently even at -30 °C. This makes cleaning time shorter and cleaning frequency can be increased. **Freezer Cleaner** is not flammable.

Application area: Freezers and cold storage rooms.

- **Performance:** Outstanding cleaning performance, easy to use allowing to increase the cleaning frequency.
- **Efficiency:** Shorter overall cleaning time, as it is not necessary to turn off the freezer, thus reducing the energy costs.
- **Safety:** No more risk due to slippery floors on freezers.

USE INSTRUCTIONS

- 1 Check hygiene plan and product label for detailed use information.
- 2 Wear suitable protective clothing when handling the product.
- 3 Apply **Freezer Cleaner** directly on the surface to be cleaned. On vertical surfaces apply with a dry cloth.
- 4 Let the product work for 10 to 20 minutes and scrub on stubborn soil if necessary.
- 5 Remove the product with a squeegee.
- 6 Alternatively, the product can also be used with cleaning machines like scrubber dryer or single disk machines.

SPECIAL NOTES

Test material compatibility in a small inconspicuous area prior to application.

For professional use only!

SAFETY INFORMATION

Do not mix with any other product.
For further information and safety instructions, please see product label and Safety Data Sheet.
