

# HT32 Hybrid Trolley 32

10-2000201

## SKU

10-2000201

## BRAND

DEQSTER

## PRODUCT NAME

Hybrid Trolley 32

## PRODUCT DESCRIPTION

The DEQSTER Hybrid Trolley offers space for 32 devices up to 15.6 inches – including iPads with protective cases. With smart charging management, active cooling, EMC Class B certification, and secure lockable doors, it's the smart and reliable solution for schools and educational environments.

## DESCRIPTION - LONG

The DEQSTER Hybrid Trolley is a flexible and secure all-in-one charging solution designed for the demands of modern schools and educational institutions. It offers space for up to 32 devices – whether iPads with or without cases, tablets, Chromebooks, or laptops up to 15.6 inches.

Equipped with smart charging electronics, the trolley automatically detects which devices are already fully charged and prevents unnecessary charging cycles, helping to extend battery life. The integrated charging management system is reliable and thoroughly tested. Additionally, two extra power outlets on the top panel allow you to connect accessories or other equipment.

An automatic circuit breaker ensures added protection during operation, while the continuously adjustable active cooling system maintains optimal temperature – even under full load. A key advantage: the EMC Class B certification. Unlike many Class A charging systems, the Hybrid Trolley emits significantly less electromagnetic radiation, reducing interference and potential health risks.

Devices are securely stored behind lockable double doors with a 270-degree opening angle, allowing for easy access at any time. The DEQSTER Hybrid Trolley combines safety, efficiency, and practicality – the ideal solution for today's digital learning environments.

## PRODUCT-HIGHLIGHTS

- \*Compatible with all devices: iPads, tablets, Chromebooks & laptops up to 15.6"
- \*Holds up to 32 devices – even with protective cases
- \*Reliable & certified charging electronics
- \*Smart charging management: detects fully charged devices
- \*Extends battery life by avoiding unnecessary charge impulses
- \*Continuously adjustable active cooling system
- \*2 additional power outlets on the top panel
- \*Automatic circuit breaker for added protection
- \*EMC Class B certified: low radiation, minimal interference
- \*Lockable double doors with 270° opening angle
- \*Secure storage with two keys per door

## CERTIFICATIONS

CE, EN62368.1, EN55032, EN55035, EN61000-3-2, EN61000-3-3

## FUNCTIONS

Charge, Fast charging, Lock, Store, Transport/Mobility, Soft Start, Intelligent Cooling

## OPERATING VOLTAGE (INPUT)

Input: 220-240V ~ 50/60Hz 16A

## OUTPUT SPECIFICATIONS

---

Each socket: 220-240V ~ 50/60Hz,0.65A, Total:15.2A Max.

## CONNECTION FEMALE

---

32 x Tripple Type-F Sockets, 1 x Dubble Type-F Socket, 1x C19-Socket

## NUMBER OF STORABLE DEVICES

---

32

## DIMENSIONS TABLET STORAGE COMPARTMENTS

---

290 x 498 x 39 mm

## LOCKING SYSTEM

---

Locking doors

## VENTILATION

---

smart ventilation system

## COLOUR

---

White

## MATERIALS

---

Wood, Aluminium

## ITEM WEIGHT NET

---

75,5kg

## ITEM WEIGHT GROSS

---

93.8Kg

## DIMENSION IN MM

---

982 x 498 x 955 mm

## COUNTRY OF ORIGIN

---

China

## MANUFACTURER WARRANTY

---

24 Months

## PACKAGING COMPONENTS

---

1X DEXTER Hybrid Trolley 32, 1X C20 Power Cord, 2x Key
